Dye Sublimation

High quality Dye Sublimation machinery
manufactured by Geo Knight & Co.

MACHINES

DC16 Digital Combo has every attachment to dye sublimate onto:

- * T-Shirts * Caps * Ceramic Plates * Ceramic Tiles * Mugs
- * Mouse Pads * Paper Memo Cubes * Tote Bag * Jigsaw Puzzles
- * Lettering * Wood / Metals * Other Misc. Fabrics & Materials

TT-DC16-220
Digital Combo 14" x 16"

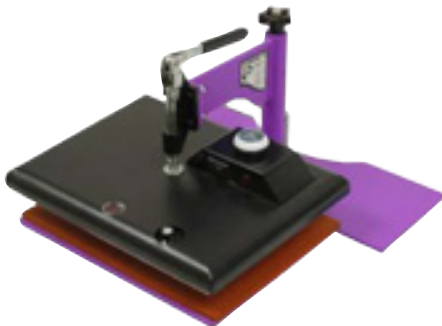

TT-DK3-220
Digital Mug Press

JETPRESS 14

Fully digital temperature control.
Automatic digital timer.
Programmable presets.
Solid steel welded framework.
SuperCoil-Microwinding™ heater technology.
Soft heater liner for accommodating inconsistent mugs.

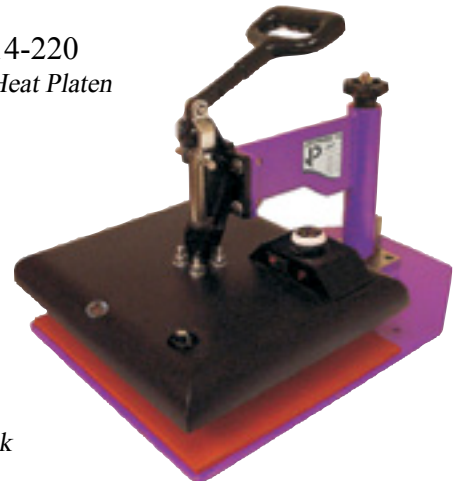

JETPRESS 12

TT-JP12-220
9" x 12" Heat Platen

TT-JP14-220
12" x 14" Heat Platen

Digital Countdown Timer with alarm
Adjustable height for items over 1" thick
Adjustable Temperature control
Accurate Temperature gauge
Industrial style clamping & locking pressure with minimal operator effort

Dye Sublimation

PRINTERS

These printers are compatible with the Rotech brand of Sawgrass inks we supply.

EPSON Stylus Photo 1410
with continuous 6 ink supply system

Paper Size:

- * A4
- * A3 / A3+

For professionals looking to produce sharp, vivid digital images for sublimation printing, the Rotech™ system for the Epson® 1410 delivers brilliant, photo quality transfers. Utilising a unique 6 colour mixture of inks that includes light cyan and light magenta, photo-realistic images are easy to obtain with superior detail and image clarity. New grayscale features (warm grayscale and cool grayscale) give you more monochromatic printing options.

EPSON Stylus Photo R1900
with continuous 8 ink supply system

Paper Size:

- * A4
- * A3 / A3+
- * Roll Media

Dye Sublimation

PRINTERS

Ricoh GX e3300N with ChromaBlast-R ink cartridges, this provides uninterrupted *cotton transfer printing* without the need for a separate bulk ink system. ChromaBlast ink is a professional heat transfer ink solution for cotton and cotton-blend fabrics. Paired with ChromaBlast transfer media, ChromaBlast inks produce vibrant, full-color, lasting images that look, feel and breathe like nothing else on the market.

Sawgrass has released the ChromaBlast-R ink cartridges for the Ricoh GXe3300N printer ranking this as the fastest entry level cotton transfer printer on the market. It provides an unique combination of price, speed, reliability and uninterrupted printing capabilities.

Features of the ChromaBlast-R for Ricoh GX e3300N

- Low image cost
- A4 media size and 250 sheet media tray (Achieve optimum results with ChromaBlast transfer paper)
- Reliable, high-yield gel-based ink formulation
- Ink configuration is cyan, magenta, yellow and black (CMYK)
- Extreme colour - vibrant colour that OEM inks simply cannot match
- Superior washability
- Incredibly soft image feel
- ChromaBlast-R driver
 - o Powerful features enable you to easily optimize colour output for photographs, vector graphics or spot colours. You are no longer limited to OEM driver capabilities or a single ICC profile.
 - o Handles routine and otherwise tedious printing options, like mirror image, automatically.
 - o ChromaBlast-R ColorSure pallet - easily achieve accurate colours.

Ricoh GX e3300N
with ChromaBlast-R ink cartridges

Ricoh GX e3300N with SubliJet-R ink cartridges, this provides uninterrupted *sublimation printing* without the need for a separate bulk ink system.

Sawgrass has released the SubliJet-R ink cartridges for the Ricoh GXe3300N. This provides an unique combination of price, speed, reliability and uninterrupted printing capabilities.

Features of the SubliJet-R for Ricoh GX e3300N

- Compatible with Windows 32 and 64 bit systems, including Windows 7
- Free PowerDriver-R user-friendly, accurate colour management solution
- Ink configuration is cyan, magenta, yellow and black (CMYK)
- A4 media size and 250 sheet media tray
- Print speeds up to 144 pages per hour.
