LASER ENGRAVERS

GV-46337
LS100 30W Laser Engraver

The LS100 is a compact, yet versatile and rugged, laser engraver perfect for quick and easy set-up in your shop, office or retail outlet.

Ideal for applications such as trophies and awards, thin material cutting, personalisation, small signage, gift items, parts marking, photographs and glass marking.

- Size: 760 x 440 x 725mm
- Weight: 43kg
- Power range: 30 - 55 Watts
- Engraving area: 460 x 305 x 147 mm

GV-49686
LS100 EX 40W Laser Engraver

(Vacuum table optional extra)

The LS100Ex is a compact co2 laser system offering extended capabilities, suitable for most marking and engraving applications.

Ideal for applications such as part marking, trophies and awards, gifts, leather goods, crystal and glassware, signage, photo marking and rubber stamp production.

- Overall machine size: 1025 x 725 x 450 mm
- Speed: Up to 2.54 m/sec
- Weight: 70 kg
- Power range: 40 - 55 Watts
- Engraving area: 610 x 305 x 147 mm
(maximum item height): 145 mm / 5.8"

GV-29351
LS900 Laser Engraver

LS900 is an industrial strength floor-mounted laser engraver ideal for experienced users looking for mid to high production output.

Ideal applications are Name Tags, Medium size signage, Architectural Models (medium to large), Thick Acrylic cutting, Higher Volume Matrix marking, CERDEC Processing, Glass & Crystal, Trophies, Paper Products, High Volume Rubber Stamps, All 600mm x 600mm Stock material and Wooden objects.

- Size: 1080mm x 945mm x 810mm
- Weight: 180 kg
- Power range: 40 - 80 Watts
- Engraving area: 610 x 610 x 250 mm

Gravograph Engraving Machines

MANUAL ENGRAVER

GV-19901
IM3 Engraving Pantograph

IM3 is a lightweight and compact pantograph ideal for businesses with limited space or budget. Its automatic centering capabilities make it simple to operate for any first-time engraver.

Ideal for engraving on small objects such as name plates, badges, machine plates and small jewellery items.

- Gross weight: 13,6 kg
- Size: 580 x 510 x 280 mm
- Maximum holding capacity with vice: 140 mm
- Maximum holding capacity with special jigs: 250 mm
- Maximum height in the vice: 50 mm
- Maximum height on the frame: 85 mm

ROTARY ENGRAVERS

GV-47461
M20 Pix Engraver
3 Axis machine

M20PIX is a rotary photo engraver specially designed for picture and text engraving. Suitable for metallic surfaces, whether flat, convex or concave.

Ideal to use with metallic gift items, such as lighters, key chains and gift boxes. Metallic medals, pendants and jewellery items.

- Overall machine size: 345 x 315 x 305 mm
- Weight of machine: 10 kg
- Engraving Area: 100 x 100 mm

GRAVOGRAPH

All Gravograph machines, accessories and materials are made by Gravograph.

GV-47084
M20 Axis Engraver

M20 is an affordable, self contained, mechanical marking system that's convenient, easy-to operate, portable and can replace your manual machine or the need to outsource your marking tasks.

Ideal for watches, bracelets, gift items, id-badges, small signs, industrial tags, identification and legend.

- Overall machine size: 310 x 340 x 310 mm.
- Weight of machine: 10 kg.
- Engraving area: 100 x 100 mm

Gravograph Engraving Machines

ROTARY ENGRAVERS

GV-48178
M20 Jewel Engraver

M20 Jewel rotary engraving machine is a compact, affordable solution for the retailer or jeweller that combines both flat and cylindrical engraving technologies in one machine.

Ideal uses are bracelets, medals, name tags and rings (inside and outside).

- Size: 345 x 315 x 305 mm
- Weight: 11.5 Kg
- Engraving area (X-Y): 100 mm x 100 mm
- Ring Engraving Characteristics:
Min - Max inside diameter : 12 - 24 mm
Min - Max outside diameter : 12,5 - 27 mm
Min - Max Width : 1 - 20 mm

GV-41859
M40 Computerized Rotary Engraver

M40 computerized rotary engraving system is affordable, versatile, fast, quiet and positively easy to use.

Ideal for engraving Trophy Plates, Plaques, Corporate Awards, Plastic or Metal Badges, Jewellery, Gifts, Lighters, Pens, Signage on plastic or metal plates, and labels.

- Machine dimensions: 550 x 510 x 320 mm
- Weight: Vice version : 18 kg, Table version : 19 kg
- Engraving area: 305 x 210 mm

GV-41863
M40G Rotary Engraver

M40G is the truly innovative engraving machine for the retail and trophy trade as well as gift shops. Fast, quiet and positively easy to use.

Ideal for Glass Engraving, Mugs, Flutes & Wine Bottles, Trophy Plates, Plaques, Corporate Awards, Badges, Jewelry, Gifts, Pens, Small Signage.

- Machine dimensions: 730 x 540 x 540mm
- Weight of Machine: 35kg
- Engraving area: 305 x 210mm

Gravograph Engraving Machines

ROTARY ENGRAVING

GV-22833
IS200 Rotary Engraver

IS200 is a small capacity rotary engraving machine.

Ideal for personalizing small objects, badges and plaques.

- Weight: 22Kg
- Engraving area: 225 x 80mm
- Maximum vice opening: 100mm
- Maximum vice jaw height: 34mm

GV-22849
IS200TX Rotary Engraver

IS200TX is a rotary engraving machine suitable for flat and cylindrical engraving.

- Weight: 52Kg
- Engraving area: 80 x 225mm (max 210mm high, and cylinders upto 200mm dia.)
- Maximum vice opening: 265mm
- Maximum vice jaw height: 76mm

GV-47827
IS400 MEPB Engraver

IS400 MEPB is a computerized engraving machine suitable for professional engravers or for the industrial user.

Ideal use for Trophy Plates, Awards, Gift Personalization, Jewelry, ADA Interior Signage, Desk Plates, Door Plates, Pet Medals, Badges, Key Rings, Tool Marking Industrial Labels and Tags and Electrical Labels

- Size: 435 x 610 x 893 mm
- Net weight: 42Kg
- Maximum engraving area: 305 x 210 mm

Gravograph Engraving Machines

ROTARY ENGRAVING

GV-47850
IS400V MEPB Engraver

IS400V MEPB is specifically designed to meet the rigorous requirements of industrial marking. Its base allows engraving heavy items of various shapes (cubic, cylindrical, conical) and switching from engraving on flat materials straight to cylinder objects in less than 30 seconds.

Ideal for picture frames, corporate awards, jewelry boxes, plaques, platters, wine buckets, signage and industrial part marking.

- Size: 900 x 615 x 840 mm
- Net weight: 90Kg
- Maximum engraving area: 305 x 210 mm

GV-xx
IS900 High Speed Engraver

IS900 high speed rotary engraving machine for medium to large engraving and cutting.

Ideal for Non-flat surfaces, Signage, front panels and matrix applications.

- Net weight: 90 kg
- Engraving area: 635 x 432 mm
- Engraving speed: 100mm/s

Gravograph Engraving Machines

ROTARY ENGRAVING

GV-47883
IS6000 MEPB Engraver

GV-47905
IS7000 MEPB Engraver

GV-47924
IS8000 MEPB Engraver

IS6000, IS7000 & IS8000 rotary machines for engraving, cutting and machining. These machines use a standard 70W continuous power spindle motor.

<p>Small: IS6000</p> <ul style="list-style-type: none"> - Engraving area: 610 x 410mm - Net Weight: 168Kg 	<p>Medium: IS7000</p> <ul style="list-style-type: none"> - Engraving area: 610 x 815mm - Net Weight: 220Kg 	<p>Large: IS8000</p> <ul style="list-style-type: none"> - Engraving area: 610 x 1220mm - Net Weight: 265Kg
